Places of interest on the route

Newport

Newport is an interesting and picturesque market town with a population around 10,000. It is located on the Shropshire/Staffordshire border in the centre of a rural farming area. Situated 10 miles from the great new town of Telford it was itself planned as a new town of the 12th century, planted here during the reign of Henry I. The wide main street designed for its market and the narrow burgage plots running at right angles to it is typical of the Norman planned towns. Due to the passage of time and a great fire of 1665 only a few of the medieval buildings remain but there are many fine Regency and Georgian frontages.

Newport Parish Church was founded in the reign of Henry I and was restored in 1883 and 1890 to its present condition. It is dedicated to St Nicholas the patron Saint of fisherman.

Shrewsbury

Shrewsbury is a historic market town with a population of around 70,560 and is located 9 miles east of the Welsh border. There are numerous places of interest such as Shrewsbury Castle, The Abbey, one of the museums or you could take a riverside stroll along the picturesque banks of the Severn. The town centre features many historic buildings from the 15th and 16th century with the centre having a largely unaltered medieval street plan. Many specialist shops, traditional pubs and restaurants can be found hidden around the town. Many of the street names have remained unchanged in centuries and there are some more unusual names such as Butcher Row, Frankwell, Gullet Passage and Bear Steps. In the centre of town lies the 29 acre riverside park known as The Quarry which is mainly used for recreation.

The town is home to Shrewsbury Flower Show one of the largest and oldest horticultural events. The show is a 2 day event which takes place in mid August and has been running for 125 years. The town was also used as the set for the US television special "A Christmas Carol". Many of the interior and exterior shots were filmed around Shrewsbury. The gravestone of Ebenezer Scrooge used in the production is still in the graveyard at St Chad's church.
