2 Diversity

Summary:

- The BME population of Malinslee increased by 56.7% between 2001 and 2011, representing 9.6% of the population, slightly less than the 10.6% seen across the Borough.
- Beside White British, the 'Other White' population is now the largest in the ward at 2.9%, having increased from 1.4% in 2001 but still slightly lower than Borough-wide (4.2%).
- The proportion of Christians in the ward decreased from 71.1% to 55.7% between 2001 and 2011, but remained the largest religious group in the ward, albeit lower than the Borough proportion of 61.7%.
- For the first time in a census, people were asked for their main language. Some 3.3% of Malinslee residents have a main language other than English, slightly lower than the 4.1% seen Borough wide.

Notes and definitions

Household deprivation

The 2011 Census categorises households on their deprivation across four dimensions

- Employment – Any member of the household aged 16-74 who is not a full-time student is either unemployed or permanently sick
- Education – No member of the household aged 16 to pensionable age has at least 5 GCSEs (grade A-C) or equivalent AND no member of the household aged 16-18 is in full-time education
- Health and disability – Any member of the household has general health 'not good' in the year before census or has a limiting long term illness
- Housing – The household's accommodation is either overcrowded (occupancy indicator is -1 or less) OR is in a shared dwelling OR does not have sole use of bath/shower and toilet OR has no central heating.

Household Reference Persons

HRPs provide an individual person within a household to act as a reference point for producing further derived statistics and for characterising a whole household according to characteristics of the chosen reference person.

- For a person living alone, it follows that this person is the HRP.
- If a household contains only one family, then the HRP is the same as the Family Reference Person (FRP).
- If there is more than one family in a household, the HRP is chosen from among the FRPs using the same criteria used to choose the FRP i.e selected on the basis of their economic activity, in the priority order.
 - Economically active, employed, full-time, non-student
 - Economically active, employed, full-time student
 - Economically active, employed, part-time, non-student
 - Economically active, employed, part-time, student
 - Economically active, unemployed, non-student
 - Economically active, unemployed, student
 - Economically inactive, retired
 - Economically inactive, other
- If some are all FRPs have the same economic activity, the HRP is the eldest of the FRPs, if some or all are the same age, the HRP is the first of the FRPs from the order in which they were listed on the questionnaire.
- If a household is made up entirely of any combination of ungrouped individuals and other related families, the HRP is chosen from among all people in the household, using the same criteria used to choose between FRPs.
- Students at their non term-time address and short-term migrants cannot be HRP.

Dependent children

A dependent child is a person aged 0-15 in a household (whether or not in a family) or aged 16-18 in full-time education and living in a family with his or her parent(s). It does not include any children who have a spouse, partner or child living in the household.
