

## **BE INSPIRED ONLINE**

**27th - 31st July 2020**

An inspiring and entertaining virtual experience for care experienced young people across the UK.

### **Who the programmes for:**

Care experienced young people aged 14-25

### **What the programme is about:**

Be Inspired is an event that seeks to Inspire, Empower and Equip care experienced young people, who want to take hold of their future, learn about different career opportunities and connect with each other.

The first event took place in August 2019 and after the overwhelmingly positive feedback from young people, speakers, panel guests and performers as well as exhibitors, we decided to bring the experience back in 2020.

After growing up in care from the age of 4, founder Ashley John-Baptiste, now a Senior BBC Reporter and Presenter, has always had

his mind set on creating something for young people with similar stories to his own that would help them believe in themselves, see a better future and find out about all the opportunities out there.

Opportunities that are there for anyone – regardless of background and help them find ways to access those.

Due to the outbreak of Covid-19, we will no longer host this experience in person, but are instead we our running the programme online.

### **The Weeks Schedule:**

- Monday 27th July 2020 – BE INSPIRED OPENING SHOW 6PM
