

SPY SCHOOL 2020 - THE LOCKDOWN LEGEND

Spy School needs recruits! Seeking highly intelligent, incredibly practical and decisively dramatic young people for top secret missions. This week-long immersive theatre adventure will take young people into the role of spies to complete training, discover clues and uncover mysteries in an online escapade! This year the stakes are the highest they've ever been and we urgently need to take action.

Entirely safe and explored at home through a mix of pre-recorded Youtube videos and tasks sent by email, this brilliant adventure will develop young people's confidence, lateral thinking and communication skills through dynamic digital tasks (delivered by The Secret Spy Service HQ). Most of all it's a chance to have fun and have an imaginative workout! Will you take on the challenge that awaits you? In collaboration with The Rep Birmingham

An inspiring and entertaining virtual experience for care experienced young people across the UK aged 14-25. Be Inspired is an event that seeks to Inspire, Empower and Equip care experienced young people, who want to take hold of their future, learn about different career opportunities and connect with each other.

After growing up in care from the age of 4, founder Ashley John-Baptiste, now a Senior BBC Reporter and Presenter, has always had his mind set on creating something for young people with similar stories to his own that would help them believe in themselves, see a better future and find out about all the opportunities out there.
