# Living Environment

The living Environment Deprivation domain measures the quality of the local environment. The indicators fall into two sub-domains. The 'indoors' living environment measures the quality of housing; while the 'outdoors' living environment contains measures of air quality and road traffic accidents.

## Most deprived

- There is just one area in Telford and Wrekin ranked in the 10% most deprived nationally and it is found within Edmond & Ercall Magna, with no areas ranked in the 10-20% most deprived.
- Just 1% of Telford and Wrekin's population live in areas ranked in the 10% most deprived nationally.
- The most deprived area in Telford and Wrekin is in Edmond & Ercall Magna and is ranked 3,091 of 32,844 areas nationally.

## Least deprived

- More than a third of areas in Telford and Wrekin (40 out of 108) ranked in the 10% least deprived nationally (Edmond & Ercall Magna, Newport South & East, Park, Madeley & Sutton Hill, Donnington x2, Muxton, Wrockwardine Wood & Trench, The Nedge) with a further 19 areas in the 10-20% least deprived.
- More than half of Telford & Wrekin's population (54%, 91,900 people) live in areas ranked in the 20% most deprived, with 37% (62,800 people) living in areas in the 10% most deprived.

## Change since 2015

- A total of 21 areas in Telford & Wrekin have seen a worsening of decile since 2015 with one area in Ketley & Overdale worsening by four deciles from 20-30% **least** deprived to 20-30% **most** deprived.
- Some 25 areas in the Borough have seen an improvement in deprivation decile since 2015. One area in Woodside has seen an improvement of 3 deciles from 30-40% most deprived to 20-30% least deprived. A further seven areas have improved by two deciles.
