Relates to internal audit's role in auditing the elements of the Authority's services and accounts that apply to all schools including academies

Five year review of provision to be undertaken in 2021/22

All of the services for which funding is requested are statutory services. This means that they cannot be traded as the LA would have to provide them to all schools whether or not the school agreed to an SLA. If the Forum didn't agree any funding for a service, then the LA would still be obliged to provide it. In these circumstances, the LA would appeal to the Secretary of State for Education, in accordance with the Schools and Early Years finance regulations, to allow the minimum sum required to be retained.

Income from fixed penalty notices and out of borough schools had reduced net expenditure, although the impact on CV19 on term-time unauthorised absence has reduced income in 2020/21

**Equalities Impact Assessment** The services identified are provided to schools as a whole rather than to individual pupils. We have therefore not been able to identify any differential impact upon groups of children and young people which would arise from the provision of these services.

Costs reduced following HLC's conversion in March 2018.

Amount moved to maintained schools only services below

The situation described above for services from the central school services block is the same for these services for maintained schools only, in that they are statutory services that the LA is legally obliged to provide. As a reduced level of 'general' (as opposed to retained duties) ESG grant continued until August 2017, the agreed de-delegations for 2017/18 covered just 7 months costs. The 2018/19 costs were lower pro rata as a result of cost reductions arising from restructures in response to ongoing reductions in Council funding. 2019/20 sums were lower due to significant conversions of schools to academies, meaning fewer maintained schools to support.

Each of these services underwent restructures which reduced costs pro rata in 2018/19 compared to 2017/18 and costs reduced further following conversions of maintained schools to academies in 2018.

Additional £10,000 recategorised from above in 1920.

Subsequent to the 2017/18 decision, legal services provided an estimate of time and thus costs for school duties (non traded) based on the services time recording system.

These services are non statutory. Remissions costs are currently being borne by T&W.

These services are non statutory. Unlike other local authorities, T&W has never top-sliced DSG to pay for school staff premature retirement costs. The annual cost of this to the authority is £1.3m per annum.
