

Statement of Reasons

TELFORD & WREKIN COUNCIL B5062 (50MPH SPEED LIMIT) ORDER 2021

Proposals

The issue of safety and speed of traffic along the B5062 has been raised by local Ward Members, Parish Councils and residents. Following a review of the area which included Speed Data collection and Personal Injury Collision analysis, the 50mph speed limit has been identified as a suitable and appropriate reduction to the existing National Speed Limit.

The reduction in speed limit will help mitigate the concerns raised and improve safety throughout the B5062 between Crudgington and Tibberton.

Road Traffic Regulation Act 1984

In deciding to introduce this speed limit the Council have had regard to the duty set out in s.122 of the Road Traffic Regulation Act 1984 to secure the expeditious, convenient and safe movement of vehicular and other traffic (including pedestrians).
