

Carbon Saving from Recycling and Rubbish Collections

Through recycling your **food waste** you have reduced our CO2e footprint by **-1050 tonnes**. As well as creating energy and fertiliser for farming!

After recycling everything you can, the items that end up in your **red top bin** are turned into energy which reduces our CO2e footprint by **-1,493 tonnes!**

Our vehicles produced 1,415 tonnes of CO2e.

Through recycling your plastics, tins and glass in your **purple top bin** and cardboard and paper in your blue bag you have reduced our CO2e footprint by **-20,679 tonnes!**

By reusing items at our HRC you have reduced our CO2e footprint by **-38 tonnes**

The total savings of CO2e of 22,368 tonnes from recycling and rubbish collections, is the equivalent of taking more than 10,000 cars off the road for a whole year!

By recycling your **garden waste** you have reduced our CO2e footprint by **-707 tonnes**. As well as making tonnes of compost to replenish our environment!
