

## Secondary Curriculum Leadership - Leading Learning & Inspiring Others

### Subject specific training - Summer term 2021 (online) led by Diane Pye

If you lead a specific subject and present information to staff, parents, governors or Ofsted, then this CPD is for you.

Informed by current inspection methodology, this CPD provides crucial information about curriculum thinking, learning, progression and leadership. It will give attendees:

- an evaluative, inspirational tool and approach for steering curriculum thinking and development
- prompts for reflecting on practice and sharing key messages about subject content, sequencing and progression
- a clear steer about Ofsted's subject-specific deep-dive approach
- a helpful PPT format to use

Aimed at subject leaders, this CPD provides an easy-to-use structure to communicate the right things to the right people in the right way.

The session aims to build confidence, competence and consistency. It will give attendees key questions to ask and the information to have at their fingertips. Attendees will come away with a presentation to use with staff, governors and inspectors.

#### Some of the feedback from the spring 2021 pilot sessions with secondary leaders:

*'Has empowered staff and given them with confidence when completing internal deep dives'*

*'A fantastic tool in preparing our thinking as a faculty'*

*'An exceptionally thorough and clear session which was informative and incredibly useful'*

*'Very useful at all points'*

*'I thought it was great - really valuable'*

**About Diane:**

Diane has over 30 years' experience in education.

Until 2020, Diane was the headteacher of a Shropshire school, which she led to an outstanding Ofsted judgement in 2017 and an excellent SIAMS church school judgement in 2020.

Since 2014, Diane has carried out school inspection work for Ofsted. She holds the professional qualification for school inspectors (PQSI), is fully trained in the education inspection framework 2019, and regularly leads Ofsted inspections.

Diane has extensive leadership experience in different schools in a variety of settings. Her particular areas of experience and expertise are leadership and management, curriculum development and the Ofsted framework.

Diane leads training events, provides specialist support and carries out school and governance reviews. Diane is also a school improvement partner with the Severn Teaching Alliance and produces national training materials.
