

Belonging Intervention Project

Exclusions Reductions Team

Exclusions Hotline: 07816372459

Who	The Exclusion Reductions Team will be manned by the current BSAT team and will bring the expertise from members of BSAT in supporting schools. There will be two duty members per day and this will allow contact in addition to support for schools and individuals. For more information with regards to the team, please contact BSAT Team Leader (Darren Lennon) Darren.Lennon@telford.gov.uk
What	The Exclusion Hotline will be used by schools to alert the council of possible exclusions and to discuss support available to the school and young people at risk of exclusion or following an exclusion. The team will be the gate keepers of support and able to discuss arrangements following an exclusion. Support could include: <ul style="list-style-type: none">- Attendance to a reintegration meeting- Running the reintegration meeting following a FTE- 1:1 work with school- 1:1 work with young person at risk of exclusion- Support in creating an Individual Behaviour Plan (IBP)- Discussion of alternatives- De-escalation support- Identification of support
How	The team will be manning a duty phone number which will provide instant access to discuss a possible exclusion and to ask for support following a given exclusion.
Why	The need to exclude can be an emotive time for all parties involved and having a team able to support both in and out of school with this process can help the process. The team will be providing telephone support to best support colleagues facing issues of exclusions.
When	The Exclusions hotline will be manned from 8:30am-4:00pm (Monday-Friday).
What are we not Exclusions Hotline are not the contact for confirming PEX or reporting a confirmed FTE to Telford and Wrekin. The team will forward such contacts to Sarah Coggins who processes PEX and FTE forms. Instead, we want to know about these young people before this point.
