A shocking story was told to our reporter in Bethlehem yesterday. It seems that a young family - visiting Bethlehem for the Roman tax census - was unable to find a room in our fair city. 'No room' they were told by every hotel, until finally, this poor young lady gave birth in a stable.

**A STABLE!** The health issues alone should cause us concern. What does this say about Bethlehem when no one - **no one** - could find the space for one family in trouble. I have heard it said that this poor family were 'Nazarenes' and should go back where

they come from. However, that is a Government issue - the issue facing us today is 'charity!' Charity begins at home they say - and Bethlehem is our home.

**Let us be charitable to strangers**
