FREE ACTIVITIES - BOOK NOW

Sessions are 9:30am - 3:30pm and will include practical activities, so please make sure you wear suitable clothing and footwear.

Monday 21st February

Public Services

An action-packed day of team building and investigating a simulated crime scene, managing a major incident/disaster, using walkie talkie radios to manage the incident and learn camp craft and expedition skills.

Sport

An opportunity to work on fitness equipment with the sport team in our gym and partake in field sport

Travel & Tourism

Have a go at real life cabin crew demonstrations using the safety equipment used on board. Make a cabin announcement to board your flight and ensure your passengers are safe before you take off.

Health, Social Care & Early Years

You will have the opportunity to take part in a range of fun practical activities for the caring industry from healthy eating to beating the bugs!

Hospitality & Catering

An action-packed day working with professionally trained chefs, to learn how to make fresh bread. You will then learn how to turn this into a delicious pizza that you will also be able to take home with you.

Hairdressing

An opportunity to see practical hair styling techniques including plaiting and braiding demonstrated by tutors. You will then have the opportunity to practice these skill yourself.

Beauty

An opportunity to see practical hand and nail treatments demonstrated by tutors. You will then get to try this skill for yourself.

Construction (TORC College)

Experience working in our realistic construction environment and have a go at some bricklaying and carpentry tasks in our purpose designed workshop.

Electrical

Experience a career as an electrician in the state-of-the-art electrical workshop where you will have the opportunity to work with cable systems, tools and test real electrical circuits. Safety boots and overalls will be required for safety reasons inside the workshop area.

Car Mechanics

Enjoy a fun packed day inside the state-of-the-art motor vehicle workshop where you will work under the bonnet of real cars doing maintenance on the engine, brakes, steering and exhaust.

Computing & Emerging Technologies

This taster will give you a flavour of our digital and IT courses by exploring opportunities within the digital economy as well as exploring how digital innovation is changing the way we work (and play). The day will provide you with practical opportunities to demonstrate your skills in areas such as networking, coding and web design.

Business

Experience the world of business and entrepreneurship. You will create your own product and with the help of experienced tutors develop a marketing plan.

Tuesday 22nd February

Engineering

Experience virtual welding, CAD (Computer Aided Design), manual machining and CNC machining in the state-of-the-art engineering facilities at Tamworth College. Boots and overalls will be required for safety reasons.

Routes To College

Are you thinking about progressing to college? Are you worried the class sizes may be too big, the work too fast paced or would prefer a more supportive environment? During your 'Routes To' taster you will be able to join in with the college environment in a smaller supportive group where we focus on teamwork activities, developing your confidence, as well giving you the opportunity to try lots of different things to see what interests you and what you enjoy.

If you aren't sure which path to take, why not choose a couple of sessions on different days so that you can compare them. You will be required to provide your personal details including any details of additional support needed upon booking. Travel to and from the college is not included. We look forward to welcoming you to Tamworth and Torc College.
