

## EYFS CPD opportunities for schools.

### Free training to support Speech, Language and Communication.

Both training sessions are fully funded (one person per setting, additional places can be booked for a small cost) for Telford and Wrekin settings and school nurseries. It is highly evident both locally and nationally that Speech, Language and Communication levels are a poor, Telford and Wrekin local authority are committed to supporting settings to provide language rich, communication friendly environments for all children who attend. It is envisaged that these two training opportunities will help to upskill staff and contribute to this commitment.

Stoke Speaks Out, a tool developed by Speech and Language Therapists as part of a School Readiness plan. A quick and easy tool to assess children's language skills in the EYFS. The screen can be used with children between the ages of 2 and 5 years 11 months and it identifies delays in understanding and spoken language and aids target setting.

**Suitable for Teachers, EYFS leads, Setting leads, Room leaders, SENDCo, Childminders.**

ICAN Early Talk training will include extend practitioner knowledge of speech, language and communications skills and processes; identifying risk factors that impact on the development of communication skills; understand the practitioner role in supporting speech, language and communication development; how to gather information around difficulties with SLC including when to and where to refer. **Suitable for all practitioners working directly with children in EYFS settings/school nurseries.** To book contact
