

Donnington Area Review Public Consultation

Background

Telford & Wrekin Council has received requests from members of the public and Donnington and Muxton Parish Council to install traffic calming and review the speed limit on a number of roads in the Parish as well as reviewing the feasibility of 20mph speed limits to be installed on the majority of Donnington estate roads.

Speed Data collected in 2019 across the Donnington estate roads shows that generally traffic speeds are compliant to the 30mph speed limit, however a small number of vehicles are travelling up to 34mph in some locations. When considering the specific request to install 20mph speed limits, some of the existing mean speeds are above the required existing speed level of 24mph in national guidance. As such, the introduction of such a scheme would require additional support from engineering measures to reduce speeds.

A review of the Personal Injury Collisions from the last 5 years has been carried out and there was found to be 19 recorded collisions, 5 were serious and 14 slight; no fatal collisions were recorded. Although there is a number of causation factors provided for the collisions in the review area and speeds are generally conforming to the 30mph speed limit, it would be reasonable to assume that encouraging slower average speeds within the estate roads of Donnington would reduce the risk of similar collisions occurring in the future. Due to the current speeds, a speed limit alone is unlikely to encourage low speeds and so it is recommended this is installed with physical traffic calming measures in areas.

Proposals

As part of our investigations, we are proposing the following main interventions in the scheme area:

- 20mph Zone
- Road Humps
- Lining and signing improvements
- Parking Restrictions

Drawings showing this scheme can be download from www.telford.gov.uk/traffic.

Have your say

Prior to implementing this scheme, we are seeking public views on the proposals.

All comments, representations and objections will be considered prior to making a final decision on whether the scheme will be implemented.

To have your say, please fill in the survey online at www.telford.gov.uk/traffic. The consultation runs from

Friday 25th February 2022 to Friday 18th March 2022.

You can request a printed survey by contacting us using the details below.

If the above recommendations are not supported during public consultation, it may be possible to consider revised proposals, however it is also possible that a scheme would not be taken forward.
