Improvements in Your Area

Telford & Wrekin Council shall be undertaking improvement works along Canongate, St Georges. These works will involve creating additional parking areas to help alleviate some of the parking pressures along this route. A copy of the proposed works are enclosed for your information.

As a local resident you may have a view as to the best location for the additional parking, however there are a number of factors that influence this such as the location of hidden underground services (gas, electricity and water) and land ownership. All of these factors have been explored before finalising the location of the proposed additional parking bays. We appreciate that these improvements may not fully solve all of the parking issues, however we believe it will help with the parking provision in the area.

If you have any comments or wish to support this scheme, please visit https://www.telford.gov.uk/info/20460/parking/3893/parking_improvement_schemes where you can have your say, or call our customer contact team on 01952 382000 by 6/6/2022. We plan to deliver these improvements summer 2022.

These works are being delivered as part of the Council's investment programme to 'Protect, Care and Invest to create a better borough'. Between 2022 and 2024 over £35m is being invested to keep neighbourhoods safe, clean and well connected. The 'Pride in our Community' Highways Capital Programme will deliver improvements to infrastructure including roads, footpaths, parking, sustainable transport, street furniture, drains and structures. Our highways vision is to 'Keep Telford Moving' and in 2022/2023 we will invest £19.67m to deliver over 180 improvement schemes across the borough.

For more about the Pride in Our Community programme visit www.telford.gov.uk/pride.

Yours sincerely
Highways, Engineering & Project Delivery
