## EXPLANATORY NOTES

### The Census

The 2001 Census was carried out on the 29<sup>th</sup> April. As the response rate was 94.2% in the Borough, it was necessary for the Office for National Statistics (ONS) to impute missing responses. All data from the Census are therefore estimates and subject to standard error.

To protect confidentiality, ONS have rounded values of 2 or less to either 3 or 0. As this process produces potentially misleading results in areas with small population, in this document values of 3 or less have been suppressed. Therefore table column may not sum to the presented totals.

### Ethnicity

The 2001 Census was the first Census to use the "mixed" ethnicity response.

### Household Composition

#### Dependent Children:

A dependent child is a person in a household aged 0-15 years (whether or not in a family) or a person aged 16-18 who is a full-time student and in a family with parents

#### Other Households with Dependent Children:

Dependent children may not always reside with one or more of their parent. For example they could live with grandparents or other relatives, or in foster homes.

#### Other Households without Dependent Children:

Married and co-habiting couples with no children or with children over the age of 15 and who are not full-time students.

'Other' includes lone-parent households with non-dependent children, households occupied by only full-time students or with non-related adults.

### Economic Activity

The economically active population is more usually defined as all people aged 16+ who are either full or part time employees, self employed, unemployed or a full time student who is working. To date, ONS have only published data for 16-74

year olds, excluding residents who are 75+ and economically active.

### Unemployment Rate

The Census definition of unemployment is broader and therefore produces a higher unemployment rate than the measure normally used by ONS (residents claiming Job Seekers Allowance).

### Long-term Limiting Illness

An illness, health problem or disability which limits daily activities or the work a person can do.
