

**Telford & Wrekin Council**  
**Off Street Parking Places Order 2017 – Wellington**

**Statement of the Borough of Telford and Wrekin Council's reasons for proposing to make the above order: -**

Telford and Wrekin are currently undertaking a review of all the Off Street Parking Places within the Borough and the associated Traffic Regulation Orders. This is to ensure they are correct and are suitable for current traffic conditions. In addition to this, the method of managing the short stay car parks is changing, users of these car parks will be required to display a free ticket issued from a parking machine located within a car park. Therefore, an order has been produced to replace the current orders which apply to the off street parking areas in Wellington for the following reasons:

1. It appears necessary to the Council to continue to provide off street parking places in Wellington to relieve or prevent congestion of traffic
2. To preserve or improve the amenities of the area and to secure the expeditious, convenient and safe movement of vehicular and other traffic (including pedestrians) in Wellington.
3. To avoid danger to persons or other traffic using the Parking Place or for preventing the likelihood of any such danger arising.
4. To facilitate the passage within the Parking Place of any class of traffic (including pedestrians).
