**Telford & Wrekin  
COUNCIL**

## Our strategy

‘To promote Telford’s role as a major contributor to the West Midlands economy; to focus on those things that will do most to unlock jobs and create growth that will improve the lives of all of the people who live in our Borough and; to make Telford a natural home for investors, innovators and entrepreneurs’.

Richard Partington, MD  
Telford & Wrekin Council

We want to see more successful start-ups, attract more entrepreneurs, support home grown entrepreneurship, see greater volumes of international trade and have stronger businesses, employing more, local, people. Successful businesses are essential if we are to provide a better deal for all of the Borough’s residents, improving health outcomes, improving skills levels and providing more and better paid jobs.

We are committed to creating the conditions and support for business to flourish, to become more competitive, and increase productivity and profitability.
