

SAFETY, HEALTH AND ENVIRONMENTAL (SHE) INFORMATION
In addition to the hazards normally associated with the types of work detailed on this drawing, note the following:
CONSTRUCTION
- Live traffic.
- Live underground utilities.
- Pedestrian/cyclist crossing facilities (both controlled and uncontrolled)
- Overhead footbridge
MAINTENANCE /CLEANING
- Sections of steeply sloping ground.
- Maintenance access should be from within the highway boundary.
ALTERATION /DEMOLITION
- As above
<small>It is assumed that all works will be carried out in accordance with the contract conditions. Where the contract conditions are not specified, refer to the relevant contract documents.</small>

- NOTES**
- This drawing should only be read in relation to the subject of the title. Other information shown on the drawing is to be considered indicative only. Reference should be made to appropriate drawing series for other information.
 - All patching/resurfacing, kerbing and iron work must be marked out in the presence of the Project Manager and agreed prior to the commencement of any works on site.
 - Bond coat to MCHW Clause 920 is required at all bound layer interfaces within the pavement, this includes planned surfaces and new asphalt layers.
 - All joints, kerbs and ironwork must be cleaned of dust and debris, all vertical faces to be painted with bitumen prior to resurfacing.
 - Planned surfaces must be swept clean and inspected immediately following planning, in order to determine the extents of any areas of deep patching. Any loose or delaminated material should be brought to the attention of the Project Manager and removed.
 - All bituminous materials to be transported, laid and compacted in accordance with BS5949:2015.

- KEY**
- Plane 110mm and resurface with:
 50mm SMA 10 surf P1/B 68+ PSV
 60mm AC20 HDW Dm 40/60 MCHW Clause 929
 - Plane 50mm and resurface with:
 50mm SMA 10 surf P1/B 68+ PSV
 - Existing Gully - all gullies and connections to be cleaned and jetted
 - Existing Gully - Grating and frame to be reset, gully and connections to be cleaned and jetted.
- G-Rs** Existing Gully - Grating and frame to be reset, gully and connections to be cleaned and jetted.
- Note: all manholes to be cleaned and jetted and locations recorded. Main drainage run to be jetted.**
- ⊕ CL Core Location - refer to core logs for further information
