I would like to support Planning Inspector Michael Hetherington's suggestions on pages 7 & 8 in terms of protecting the line of the Shrewsbury & Newport Canal.

The restoration of this canal would bring significant sustainable financial, business & leisure benefits to Telford & Wrekin.

I would also support the comment that restoration should protect the natural & historic environment, although I suggest that the phrase "no adverse impacts" is perhaps too strong & should read "no or minimal adverse impacts".

Yours faithfully,

Chas Warren
