Subject: Local Plan - public consultation after Planning Inspectors response to T&W Local Plan

Categories: [REDACTED]

Dear Sir

I originally objected to the Telford & Wrekin Plan on the basis that I felt that the historic line of the Newport/Shrewsbury Canal was not sufficiently protected from future building encroachment. Given that the ultimate aim of the S&N Canal Trust is to make the canal navigable again, thus providing leisure/tourism/employment opportunities in the more neglected rural areas of T&W, I felt that this omission was serious enough to register my objection to the Plan.

I now see that the inspector has made some recommendations to T&W to include additional policies with regard to the line of the canal. I support these additional policies and if they were all to be adopted by T&W and incorporated into the Local Plan I would be happy to remove that particular objection.

Yours faithfully

Mrs Paula Doherty
