Dear Sirs

Please find below our comments to the Local Plan :

1. The Parish Council noted the removal of the support for a large hotel development within or around Ironbridge.
2. The Council supported the inclusion of the importance of green infrastructure in relation to the appreciation of the historic environment.
3. It was noted that the increase in the area of H5 was due to an incorrect measurement in the first draft and that there would be no increase in the number of dwellings on the site.

Gavin Patience
