<b>Operator</b>	<b>Wrekin Construction Resources Limited</b>
<b>Installation Address</b>	Yard 5, Wrekin House Rookery Road Industrial Estate St Georges Telford TF2 9BW
<b>Permit Reference</b>	15/00003PPCB_M/290818
<b>Grid Reference</b>	SJ707118
<b>Registered Office</b>	Wrekin Construction Resources Ltd Yard 5, Wrekin House Rookery Road Industrial Estate St Georges Telford TF2 9BW
<b>Registration Number</b>	09247231

Wrekin Construction Resources Ltd is hereby permitted by Telford & Wrekin Council to carry out the activity of the crushing, grinding or other size reduction, with machinery designed for that purpose, of bricks, tiles or concrete as defined under Schedule 1, part 2, Section 3.5, Part B (c) of The Environmental Permitting (England and Wales) Regulations 2016 (“The Regulations”) in accordance with the conditions within this permit.

**Signed:**

**Clair Travis**

**Date: 29 August 2018**

**Environmental Health Officer**

**Authorised by the Borough of Telford and Wrekin to sign in that behalf**

Provenance	Relevant Dates
Date Application Made (Deemed application)	01.02.2016
Date 'Duly Made'	02.03.2016
Date Permit First Issued	08.04.2016
Date of Variations	N/A
Date of Latest Variation	29.08.18

**Introductory Note** – This Introductory note does not form part of the permit.

**Determination of application**

Particular conditions have been inserted as representing the authority's judgement of what constitutes BAT, having regard to the statutory guidance issued by the Secretary of State and to all site specific considerations.

**Description of the Installation**

Wrekin Construction Resources Ltd carries out the activity of crushing, grinding or other size reduction, with the permitted mobile crusher designed for that purpose, of bricks, tiles or concrete.

**End of Introductory Note**

## Permit Conditions

### General

1. The best available techniques shall be used to prevent, or where that is not practicable, reduce the emissions from the installation in relation to any aspect of the activity which is not specifically regulated by any condition of this permit.
2. An appropriate person (and deputy) shall be appointed as the primary point of contact with the regulator. The regulator shall be informed in writing of the appointed person (and deputy). In the event of a different person being appointed, the regulator shall be informed without delay.
3. A copy of this permit shall be kept at the installation. All relevant staff shall be made aware of its content and shall be told where it is kept.
4. If the operator proposes to make a change in the operation of the installation, they must, at least 14 days before making the change, notify the regulator on the appropriate form. The notification must contain a description of the proposed change in operation. A 'change in operation' means a change in the nature or functioning, or an extension, of the installation, which may have consequences for the environment.
5. All records required to demonstrate compliance with any conditions of this Permit shall be kept in an organised manner. The records shall be kept electronically or in paper form. Records:
  - a) Must be legible and any amendment entered into a record shall be made in such a way as to leave the original clear and legible.
  - b) Records shall be kept for a period of 2 years, unless otherwise stated.
  - c) Records shall be kept on-site for a minimum of 12 months. Records kept off-site, must be made available within 7 days of any request by the regulator.
6. All documentation required to be submitted to the regulator to demonstrate compliance with relevant conditions, shall be submitted in an electronic format. Submissions shall be sent to: [environmental.health@telford.gov.uk](mailto:environmental.health@telford.gov.uk)

7. Only the plant and equipment listed in table 2 shall be used to carry out the regulated activity specified in table 1.

<b>Table 2</b>		
<b>Make</b>	<b>Model</b>	<b>Serial number</b>
McCloskey International mobile crusher	J45	74761

**Notifications**

8. The operator shall, before the mobile plant is operated, notify the regulator of the site where the mobile plant is to be operated, and the regulator who issued the permit:
- a. where and when the mobile plant is expected to start operating, and
  - b. the serial numbers of the mobile plant involved.

**Emissions and monitoring**

9. No visible particulate matter shall be emitted beyond the site boundary where the crusher is operating.
10. The emission requirements and methods and frequency of monitoring set out in Table 3 shall be complied with.

<b>Table 3</b>				
<b>Substance</b>	<b>Source</b>	<b>Emission limit/provisions</b>	<b>Type of monitoring</b>	<b>Monitoring frequency</b>
Particulate matter	Whole process	Avoidance of visible emissions crossing the site boundary	Recorded operator observations	On start-up and on at least two more occasions each day
Smoke	engines	No visible smoke during normal operation	Recorded operator observations	On start-up and on at least two more occasions each day

**Operations**

11. Asbestos shall not be crushed or screened.
12. Dusty materials (including dusty wastes) shall only be stored in within the site boundary as detailed in Appendix 1 and shall be subject to suppression and management techniques to minimise dust emissions.
13. Crushers shall be totally contained or fitted with a water suppression system over the crusher aperture.
14. Where the use of water as a method of dust suppression is necessary in order to meet the emission limits, it shall be used. In such circumstances, if water of the required pressure is not available for use on the suppression system, then the process shall not operate.

15. Deposits of dust on external parts of the plant shall be cleaned off at the end of each working day in order to minimise the potential for wind entrainment.
16. Processed materials likely to generate dust shall be conditioned with water prior to internal transfer.
17. All dusty materials, including wastes, shall be conveyed using enclosed conveyors. All transfer points on the crusher shall be fitted with water suppression.
18. No potentially dusty materials (including wastes) or finished products shall arrive on or leave the site other than by use of covered vehicles.
19. All areas where there is regular movement of vehicles shall have a consolidated surface capable of being cleaned, and these surfaces shall be kept clean and in good repair, or shall be kept wet.
20. Vehicles shall not track material from the site onto the highway.

#### **Maintenance and training**

21. All plant and equipment capable of causing, or preventing, emissions shall be maintained in accordance with the manufacturer's instructions. Records shall be kept of such maintenance.
22. Staff at all levels shall receive the necessary training and instruction to enable them to comply with the conditions of this permit. Records shall be kept of relevant training undertaken.

#### **End of Permit Conditions**

**This section does not form part of the permit, but contains guidance relevant to it.**

### **Inspections**

Regular inspections will be made by officers of Telford & Wrekin Council (without prior notice), in order to check and ensure full compliance with this permit. Inspection will be carried out in accordance with a risk assessment, and/or following from any complaints or applications.

### **BAT (Best Available Techniques)**

Article 2(11) of the IPPC Directive defines “best available techniques” as follows:

*“the most effective and advanced stage in the development of activities and their methods of operation which indicates the practical suitability of particular techniques for providing in principle the basis for emission limit values designed to prevent, and where that is not practicable, generally to reduce emissions and the impact on the environment as a whole”.*

- “techniques” shall include both the technology used and the way in which the installation is designed, built, maintained, operated and decommissioned,
- “available” techniques shall mean those developed on a scale which allows implementation in the relevant industrial sector, under economically and technically viable conditions, taking into consideration the costs and advantages, whether or not the techniques are used or produced inside the Member State in question, as long as they are reasonably accessible to the operator,
- “best” shall mean most effective in achieving a high general level of protection of the environment as a whole.

In determining the best available techniques, special consideration should be given to the items listed in Annex IV of the Directive.

### **Confidentiality**

The permit requires the operator to provide information to the regulator. The regulator will place the information onto the public register in accordance with the Regulations. If the operator considers that any information provided is commercially confidential, it may apply to the council to have such information withheld from the register as provided in the Regulations.

### **Health and Safety at Work and Other Statutory Requirements**

Compliance with this permit does not necessarily infer compliance with any other legislation.

### **Notification of Changes to the activity or Operator**

If the operator proposes to make a change in the operation of the installation, they must, at least 14 days before making the change, notify the regulator on the appropriate form. The notification must contain a description of the proposed change in operation. A ‘change in operation’ means a change in the nature or functioning, or an extension, of the installation, which may have consequences for the environment.

The operator may be liable to prosecution if they operate otherwise than in accordance with the conditions and plant described in this permit.

### **Transfer of the permit**

Before the permit can be wholly or partially transferred to another person, an application to transfer the permit has to be made jointly by the existing and proposed operators. A transfer will be allowed unless the regulator considers the proposed operator will not be the person who will have control over the operation of the installation, or will not comply with the conditions of the transferred permit.

### **Surrender of the permit**

Where the operator intends to cease the operation of an installation (in whole or in part). In the case of Part B Permits, the operator must notify the Council on the appropriate form in accordance with Regulation 24. For A2 permits, the operator must apply for a surrender, using the appropriate form and in accordance with Regulation 25 and part 1 of Schedule 5.

### **Risk Rating**

Procedures and records shall be examined during inspections and will be referred to during the Department of Food and Rural Affairs (DEFRA) risk rating, carried out to determine the risk category: LOW, MEDIUM or HIGH which will determine the annual subsistence fee and the inspection frequency of the regulator.

### **Enforcement**

The operator will be liable to enforcement action where: -

- a) the operator fails to comply with or contravenes any permit condition;
- b) a change is made to the installation operation without prior notification of the change to the regulator;
- c) intentional false entries are made in any record required to be kept under the conditions of the permit;
- d) false or misleading statement is made.

Any enforcement action is taken in accordance with the regulator's enforcement policy. <http://www.telford.gov.uk/NR/rdonlyres/240C3F4A-8E36-4C12-8311-E4E57A3DF8CC/26214/MicrosoftWordEnvironmentalHealthandWellbeingEnforc.pdf>

### **Annual Subsistence Charge**

An annual subsistence fee is payable in order to operate your installation. An invoice will be issued annually by the regulator which will include details of how to pay. The charges are based on the DEFRA risk rating. Details of the risk assessment can be found at <http://www.defra.gov.uk/environment/ppc/localauth/fees-risk/risk.htm> .

You are reminded that failure to pay the subsistence fee may result on the Permit being revoked. It is an offence to operate a regulated facility without a permit and upon summary conviction liable to a maximum fine of £50,000 and/or imprisonment.

### **Appeal against Regulatory Action**

The operator can appeal against regulatory action by the regulator to the Secretary of State for Environment, Food & Rural Affairs. Appeals must be made in accordance with Regulation 31

and sent to the Secretary of State for Environment Food and Rural Affairs. The appeal form can be found at:

[http://www.planning-inspectorate.gov.uk/pins/environment/environment/environmental\\_appeals/environmental\\_permitting\\_appeal\\_form.pdf](http://www.planning-inspectorate.gov.uk/pins/environment/environment/environmental_appeals/environmental_permitting_appeal_form.pdf)

Guidance on the appeal procedure can be found at

[http://www.planning-inspectorate.gov.uk/pins/environment/environment/environmental\\_appeals/environmental\\_permitting\\_guidance\\_notes.pdf](http://www.planning-inspectorate.gov.uk/pins/environment/environment/environmental_appeals/environmental_permitting_guidance_notes.pdf)

There are time limits for making an appeal as follows:

- a) in relation to an appeal against a revocation notice, before the notice takes effect;
- b) in relation to the withdrawal of a duly-made application under paragraph 4(2) of Schedule 5, not later than 15 working days from the date of the notice served under that paragraph;
- c) in relation to a variation notification, a suspension notice, an enforcement notice or a landfill closure notice, not later than 2 months from the date of the notification or notice;
- d) in any other case not later than 6 months from the date of the decision or deemed decision.

Please note:

**An appeal will not suspend the effect of the conditions appealed against;** the conditions must still be complied with.

In determining an appeal against one or more conditions, the Act allows the Secretary of State in addition to quash any of the other conditions not subject to the appeal and to direct the local authority either to vary any of these other conditions or to add new conditions.

### **Contact Numbers for the Regulator**

The Regulator is the Public Protection Team of Telford & Wrekin Council. They can be contacted on 01925 381 818. You may also contact them by email at any time. [environmental.health@telford.gov.uk](mailto:environmental.health@telford.gov.uk)
