Date: 15/02/2019

Improvements in Your Area: Ketley and Overdale Ward

We will shortly be carrying out a resurfacing scheme along West Centre Way, Lawley between Lawley Drive and Gresham Drive to improve the condition of the carriageway. The work is due to take place on 27th February, for four nights **weather permitting**. The working hours are expected to be between 20:00 – 06:00, Monday to Friday throughout the working week, with no works being undertaken over the weekend. To complete the work we will need to close the road with a full diversion in place on West Centre Way, Dawley Green Way, Heath Hill, Dawley Road and Lawley Drive. The works will be completed by our principal contractor Telford and Wrekin Services Ltd, who will be using their specialist surfacing contractor Tarmac Ltd.

Telford and Wrekin Council and our Principal Contractor TWS Ltd, along with their surfacing contractor Tarmac Ltd are committed to reducing the noise impact of the resurfacing works to residents. Although every effort will be made to reduce noise, the nature of the works will inevitably produce noise and some disruption to residents is expected. Nevertheless, to minimise the noise impact, works have been scheduled such that the most noise intensive activities i.e. planing of the existing road surface and the breakout out of ironwork will be completed by midnight each night.

Please see attached plan showing the location and extent of these works.

Information about roadworks in Telford can be found at www.telford.gov.uk/roadworks. If you need to contact Telford & Wrekin Council about these improvements email highways@telford.gov.uk. Your contact will be logged and a member of the team will respond as soon as possible.

Yours faithfully

Cllr Shaun Davies
