

### Holiday Activities and Eatwell Fund Target Areas and Total Funding

The table below shows the number of pupils in each ward that are in receipt of free school meals (FSM). This will help you to plan how many children and young people (CYP) you may need to target. We would not expect you to support all CYP in your ward.

The final column shows the total provisional allocation of funding that is available for your ward. You can apply for all of this funding, however, if you do this you will need to demonstrate how you are going to reach a significant number of these CYP with your project.
