Dear Sir or Madam

I very much support the inclusion of the paragraphs in the final version of the Local Plan.

If people are to get and stay fit, the resource afforded by canals is really important, plus they are a beautiful environment.

*Yours faithfully
Peter Roscoe*

"The Council will safeguard the alignment of the Shrewsbury and Newport Canals (as shown on the Policies Plan) with a view to their long-term re-establishment as navigable waterways by:

- i. Not supporting development likely to destroy the canal alignment or its associated structures*
- ii. Ensuring that when the canal is affected by development the alignment is protected or an alternative alignment provided.*

Proposals for the restoration of the Shrewsbury to Newport canal will only be supported where they can demonstrate that there will be no adverse impacts upon the natural and historic environment including designated sites, heritage assets, habitats and species in accordance with Policies NE1, NE2, BE4, BE6 and BE8"
