**Subject:** RE: Catch up with the inspector

Tina

We don't feel we answered the inspector's question on why we picked the three Strategic Landscapes that we did. I would be happy to direct the inspector to two pages in the 2009 landscape sensitivity study (EiP Reference C3e-i) that set the basis for the search around three areas.

Please can you ask the inspector if we can direct him to the two pages in question.

Many thanks

Vincent

**Subject:** Catch up with the inspector

Tina

As well as seeking the inspector's advice on how he wants the modifications drafted and the potential FOI matter I raised, we'd greatly value knowing when we can expect to see a copy of his report for proof reading and fact checking.

A number of us noted that we were expecting something mid-April. Any chance we could get a report before Easter? We need to plan consultations on modifications over Easter etc., so an approximate date would be very helpful.

Please could you copy us all in to any response the inspector offers you.

Thanks
