Telford and Wrekin Playing Pitch and Outdoor Recreation Strategy

Appendix One

2025 - 2035

APPENDIX ONE: SPORTING CONTEXT

The following section outlines a series of national, regional and local policies pertaining to the study and which will have an important influence on the Strategy.

National context

The provision of high quality and accessible community outdoor sports facilities at a local level is a key requirement for achieving the targets set out by the Government and Sport England. It is vital that this strategy is cognisant of and works towards these targets in addition to local priorities and plans.

Department of Culture, Media and Sport Get Active: A Strategy for the Future of Sport and Physical Activity (2023)

The previous Government published its new strategy for sport in August 2023. The 2015 government sport strategy, Sporting Future: A New Strategy for a More Active Nation, was a fundamental re-framing of sport and physical activity in the UK. It set out five outcomes delivered by sport and physical activity:

- ◀ Physical wellbeing
- ◀ Mental wellbeing
- ◀ Individual development
- ◀ Social and community development
- ◀ Sustainable economic development

This new strategy builds on the foundations of Sporting Future and retains these five outcomes at its core. In order to measure its success in producing outputs which accord with these aims it has also adopted a series of three core priorities, with seven indicators to achieve these priorities as follows:

- ◀ **Being unapologetically ambitious in making the nation more active**
 - ◀ Ensuring everyone is focused on increasing physical activity, meaning fewer inactive children, and narrowing the gap on inactivity where groups are not being reached, with visible progress across the country by 2030
 - ◀ Focusing on evidence, data and metrics
 - ◀ Setting the future direction for facilities and spaces where people can be active
- ◀ **Making sport and physical activity more inclusive and welcoming for all that everyone can have confidence that there is a place for them in sport**
 - ◀ Helping the sector to be welcoming to all
 - ◀ Improving how issues and concerns are dealt within the sector
- ◀ **Moving towards a more sustainable sector that is more financially resilient and robust**
 - ◀ Supporting the sector to access additional, alternative forms of investment
 - ◀ Working towards a more environmentally sustainable sector

Delivering against these priorities will help create a more active nation and a more sustainable sport sector. These aims are complementary; greater participation, stronger governance and confidence in the sector will help to drive investment, which in turn helps to attract new audiences. The vision is to make sport and physical activity accessible, resilient, fun and fair, for now and the years to come – for the benefit of individuals and the country.

Sport England Uniting the Movement: Our 10-year vision to transform lives and communities through sport (2021-2031)

Sport and physical activity makes people happier and healthier, and movement is the lens through which we can make that happen. It does the same thing for our communities, with life-changing, sustainable benefits that have huge economic and social value. That's why Sport England wants sport and physical activity to be recognised as essential to help overcome these national challenges.

The Strategy recognises the need to invest in sport and physical activity through NGBs, other sports bodies and local sports clubs, organisations and community groups to increase engagement for different groups as part of our core purpose. It states that there is now a need to go further in promoting movement in general as the means to unlock sport and activity for some people.

Tackling inequalities

There are deep-rooted inequalities in sport and physical activity, which means that there are people who feel excluded from being active because the right options and opportunities aren't there. These inequalities are at the very core of the Uniting the Movement.

Sport England plans on having a laser focus on tackling inequalities in all that it does, because providing opportunities to people and communities that have traditionally been left behind, and helping to remove the barriers to activity is vitally important.

National Planning Policy Framework (2024)

The National Planning Policy Framework (NPPF) sets out planning policies for England. It details how these changes are expected to be applied to the planning system. It also provides a framework for local people and their councils to produce distinct local and neighbourhood plans, reflecting the needs and priorities of local communities.

The NPPF states the purpose of the planning system is to contribute to the achievement of sustainable development. It identifies that the planning system needs to focus on three themes of sustainable development: economic, social and environmental. A presumption in favour of sustainable development is a key aspect for any plan-making and decision-taking processes. In relation to plan-making the NPPF sets out that Local Plans should meet objectively assessed needs.

The 'promoting healthy communities' theme identifies that planning policies should be based on robust and up-to-date assessments of the needs for open space, sports and recreation facilities and opportunities for new provision. Specific needs and quantitative or qualitative deficiencies or surpluses in local areas should also be identified. This information should be used to inform what provision is required in an area.

Paragraph 104 sets three criterion that ensures existing open space, sports and recreational buildings and land, including playing fields and formal play spaces, should not be built on unless:

- ◀ An assessment has been undertaken, which has clearly shown that the open space, buildings or land is surplus to requirements.
- ◀ The loss resulting from the proposed development would be replaced by equivalent or better provision in terms of quantity and quality in a suitable location.
- ◀ The development is for alternative sports and recreational provision, the needs for which clearly outweigh the loss.

In order for planning policies to be 'sound' local authorities are required to carry out a robust assessment of need for open space, sport and recreation facilities.

The FA National Football Facilities Strategy (2018-28)

The Football Association's (FA) National Football Facilities Strategy (NFFS) provides a strategic framework that sets out key priorities and targets for the national game (i.e., football) over a ten-year period.

The Strategy sets out shared aims and objectives it aims to deliver on in conjunction with The Premier League, Sport England and the Government, to be delivered with support of the Football Foundation.

These stakeholders have clearly identified the aspirations for football to contribute directly to nationally important social and health priorities. Alongside this, the strategy is clear that traditional, affiliated football remains an important priority and a core component of the game, whilst recognising and supporting the more informal environments used for the community and recreational game.

Its vision is: *"Within 10 years we aim to deliver great football facilities, wherever they are needed"*

£1.3 billion has been spent by football and Government since 2000 to enhance existing football facilities and build new ones. However, more is needed if football and Government's shared objectives for participation, individual well-being and community cohesion are to be achieved. Nationally, direct investment will be increased – initially to £69 million per annum from football and Government (a 15% increase on recent years).

The NFFS investment priorities can be broadly grouped into six areas, recognising the need to grow the game, support existing players and better understand the different football environments:

- ◀ **Improve 20,000 Natural Turf pitches**, with a focus on addressing drop off due to a poor playing experience;
- ◀ **Deliver 1,000 3G AGP 'equivalents'** (mix of full size and small sided provision, including MUGAs - small sided facilities are likely to have a key role in smaller / rural communities and encouraging multi-sport offers), enhancing the quality of playing experience and supporting a sustainable approach to grass roots provision;
- ◀ **Deliver 1,000 changing pavilions/clubhouses**, linked to multi-pitch or hub sites, supporting growth (particularly in women and girls' football), sustainability and providing a facility infrastructure to underpin investment in coaching, officials and football development;
- ◀ **Support access to flexible indoor spaces**, including equipment and court markings, to support growth in futsal, walking football and to support the education and skills outcomes, exploiting opportunities for football to positively impact on personal and social outcomes for young people in particular;
- ◀ **Refurbish existing stock** to maintain current provision, recognising the need to address historic under-investment and issues with refurbishment of existing facilities;
- ◀ **Support testing of technology and innovation**, building on customer insight to deliver hubs for innovation, testing and development of the game.

The FA: Inspiring Positive Change Through Football (2024-28)¹

The FA’s 2020-2024 strategy, ‘Inspiring Positive Change’, coincided with record growth across the sport, with more women and girls playing, coaching, officiating and supporting the flourishing professional game than ever before.

¹ [FA Strategy 2024-2028: The Football Association](#)

² [The FA Womens & Girls Football Strategy 2024-28](#)

This strategy aims to build on the success achieved to date and strives to continue working to unlock the full potential of the women's and girls' game. The strategy outlines four strategic priorities as seen below.

1. **Build and Protect the Uniqueness of the Women's Game:** Continue to honour the history of women's football and recognise those who have contributed towards making it so unique, whilst ensuring the distinct qualities and unique culture of the women's game are valued and protected.
2. **Win a Major Tournament:** Continue to be world-leaders both on and off the pitch, developing players and building an inclusive talent pathway system to make football more equal and accessible at every level of the game, ensuring the England pathway and teams represent society.
3. **Build Robust, High-Quality Competition:** Create compelling competition structures and support clubs to develop to the appropriate level within the game, while enabling people to grow and develop within The FA's competition structures.
4. **Deliver Equal Opportunities for Women and Girls to Play:** Sustain growth in schools whilst tackling inequalities. Continue to grow the number of female teams and deliver vibrant league offers whilst extending and enhancing the sessional football offer. The ambition is for 90% of schools to deliver equal access for girls to play football in key stages two and three.

There are five golden threads which weave through each of the four strategic priorities and across all levels of the women's and girls' game, which will be instrumental for delivering the next phase of growth by 2028:

1. **Female Health and Wellbeing:** Develop the game to support women and girls with their health and wellbeing needs, providing them with environments in which they can thrive.
2. **Safeguarding:** Support the evolution of an ever-safer culture across the women's and girls' game.
3. **Refereeing:** Grow and nurture a new generation of referees who are representative of our society.
4. **Coaching:** Support and develop brilliant coaches capable of unleashing every player's potential in a safe and inclusive game.
5. **Diversity and Inclusion:** Ensure the game is more reflective of our society.

Cricket in England and Wales has seen transformative growth since the publication of its previous strategy Inspiring Generation (2020-24). Its new strategy represents an evolution of its plans, however, many of its previous themes are still relevant. Its main purpose is to say 'Cricket is a game for me' through its vision:

England Hockey Strategy (2023 – 2028)

England Hockey's Facilities Strategy can be found [here](#).

Aiming to make hockey more noticeable, relevant, and accessible to all, England Hockey have launched their new strategy 'Creating a Future for Our Game Together' on 3rd October. The new strategy is a continued effort to re-engage with the current hockey community and to reach out to potential newcomers to introduce them to hockey.

Underpinning the strategy and of importance to the hockey community are four values, "collaborate inclusively, care for people and places, play with spirit win with grace and resilient in everything we do".

The strategy is the culmination of two years consultation with various stakeholders across the sport and larger sporting sector. Hockey will be guided by five key objectives over the next five years.

1. Lead Positive Change: to create and champion positive change within the community by broadening and widening the engagement of the sport and making it more ethnically and culturally diverse.
2. Meaningful Growth: to make sure that our sport thrives and grows into the future, we want to nurture a love of hockey within a more diverse group of young players and communities to reflect society.

The strategy aligns with Sport England's 'Uniting the movement' strategy and UK Sport's 'Powering Success, Inspiring Impact' strategic plan.

Rugby Football League – National Community Facilities Strategy (2024 – 2030)

The RFL has developed a new National Facilities Strategy which will guide investment into the game from 2024 through to 2030. The proposed investment package aligned to the Strategy will not only transform facilities, but also bolster the sport's social impact, reinforcing its position as a vital part of the nation's sporting and social fabric.

The four focus areas of the Strategy are:

- ◀ **Security of Tenure** – allowing clubs to plan for the long-term
- ◀ **Accessible and Inclusive Facilities** – providing suitable facilities for all and creating safe spaces for the wider community
- ◀ **Adequate and Appropriate Pitch Provision** – investment both in playing surfaces, and in upskilling a volunteer workforce to maintain them
- ◀ **Sustainability** – both environmental and financial

The Strategy will deliver on the four focus areas by delivering against a set of five recommendations which are set within the Strategy and are detailed below. These recommendations reflect the wider strategic aspirations across the sport and are for the RFL to work to deliver.

 - ◀ Ensure all community clubs have the knowledge and resource to provide good quality grass pitches.
 - ◀ Supporting clubs to have good quality changing and social facilities which can support the scale of need at each club. These must be inclusive for all participants and benefit target user groups such as women and girls' participants.

England Athletics Strategic Plan – Athletics & Running: for everyone, forever – 2017 and beyond

This plan sets out England Athletics' mission, vision and strategic priorities that will direct how they work as an organisation during the coming years: what they do and how they will do it.

Vision: Make athletics and running the most inclusive and popular sport in England, led by a network of progressive clubs and organisations and supported by a sustainable, respected and trusted governing body.

For England Athletics to achieve this vision, they will focus on three values:

- Pride – taking pride in their work and demonstrating to athletes that they recognise the importance of their role in bettering athletics.
- Integrity – demonstrate integrity to earn respect and to build effective partnerships.
- Inclusivity – promote inclusivity in all their actions.

Mission: To grow opportunities for everyone to experience athletics and running, to enable them to reach their full potential.

In order to achieve their mission, England Athletics will have three strategic priorities.

1. To expand the capacity of the sport by supporting and developing its volunteers and other workforce. The target is to achieve a 6% increase every year of licensed leaders, coaches and officials.
2. To sustain and increase participation and performance levels in our sport. To achieve this, England Athletics' current targets are to increase the number of club registered athletes from (149,000 to 172,000), engage 135,000 people through the RunTogether programme and to increase athlete performance levels across all events and disciplines by 1% every year.
3. To influence participation in the wider athletics market. Their target here is to increase the number of regular athletes or runners by at least one million.

England Athletics Facility Strategy (2018 – 2025)

The purpose of this document is to set out our long term vision for athletics facilities in England. Facilities form a vital component of the overall England Athletics strategy.

The development, protection and enhancement of facilities will support our strategic plan and help England Athletics contribute to the delivery of the Department for Culture, Media and Sport's Sporting Futures: A New Strategy for Sport and Sport England's strategy Towards an Active Nation. Appropriate facilities help to attract and inspire new participants and provide the foundation and focus for a significant proportion of the England Athletics family.

The England Athletics Strategic Plan notes that the sport increasingly needs to become financially sustainable and that a business-like and innovative approach is a vital component of its future success. Facilities are fundamental, but they are also expensive to create and to maintain. The sport therefore faces a significant challenge to develop, improve and maintain facilities, most of which are currently operated and funded by third parties.

This strategy sets out a challenge to all those involved with the delivery of the sport to be innovative and business like in the operation and development of facilities at a time of financial challenge, as it aims “To create an innovative and inspiring network of sustainable athletic facilities, with the capacity to meet both current and future demand across England”.

England Netball

In November 2021 England Netball launched a 10-year ‘Adventure Strategy’ for the game with a new brand identity for the organisation.

England Netball’s ‘Adventure Strategy’ shares a purpose-led ambition for the game, to build on the momentum the sport has seen in recent years and take it to new heights for the decade ahead.

The ‘Adventure Strategy’ outlines the intention to:-

- ◀ accelerate the development and growth of the game at every level, from grassroots to the elite,
- ◀ elevate the visibility of the sport, and
- ◀ lead a movement to impact lives on and beyond the court.

At the heart of its purpose, England Netball, with its proud and unique female foundations, will remain dedicated to increasing opportunities for women and girls to play the game as a priority, working tirelessly to address the gender participation gap in sport that has widened since the global pandemic.

Underpinned by years of engaging with and delivering netball for female communities, the organisation pledges to understand, support and nurture women and girls more deeply at every life stage, at every age.

The organisation is also committed to opening the sport to new audiences in every community, so netball better represents the rich diversity of the country it proudly represents, and ensures the sport continues to evolve and adapt to thrive in the future, helping to create a truly inclusive sport for all where everyone can belong, flourish and soar. A recent partnership announcement with England Men’s and Mixed Netball Association (EMMNA) to help develop and grow male participation in the game, supports this commitment as England Netball pledges to promote difference and embrace the opportunity to make the sport a possibility within everyone’s reach.

Transforming netball for children and young people is a strategic priority to protect the future of the sport. Working with schools and policy makers to extend physical literacy within, and after the school day with a focus on netball specific provision will pave the way for greater community participation. The organisation will accelerate the expansion of its Bee Netball programme for young children, whilst supporting teens and young women to stay in the game to keep them physically active and in the game for life.

The elite game is in focus too, with the ambition for the Vitality Roses to be the best female sports team in the world, supporting the national team to consistently win on the world stage, with an outstanding talent pathway in place to fuel sustainable successes on court, and

setting new standards for netball. The professionalisation of the game over the next decade is a priority, focusing on growing world-leading international and domestic competitions and events, and creating more careers in the sport.

Grounded in feedback from the Netball Family, with over 3,000 members and stakeholders consulted as part of the strategic process to understand what they wanted netball to 'look like' in 2031, the plan is aspirational and ambitious and sees the organisation pledge to continue to be a trailblazer for women's sport as it embarks on its new adventure.

Facility Development

The facility development aspirations stated within the Strategy are to:-

- ◀ Take a fresh look at the spaces required to support the sport, creating accessible places in every community to allow netball to be incorporated into how and where women and girls live their lives;
- ◀ Protect, enhance, and extend the network of homes that house the sport at a local and regional level;
- ◀ Develop an elite domestic professional competition that supports full time athletes underpinned by a world class infrastructure and environments.
- ◀ For England Netball to achieve its ambitions to make the game accessible to wider audiences and in every community, it encourages Local Authorities to adopt policies within Playing Pitch Strategies and Built Facilities Strategies that:-
- ◀ Facilitates informal netball activity within neighbourhood multi use games areas for example by installing combined outdoor basketball and netball goals and art courts in Neighbourhood Equipped Areas for Play (NEAPs).
- ◀ Incorporates the cultural and health needs of women and girls within any designs for improved or new facilities.
- ◀ Protects and enhances netball facilities within all Primary and Secondary School environments so they offer a positive first experience of the sport for students and the wider community during out of school hours.
- ◀ Supports the installation of floodlights on outdoor courts to increase all year-round use.
- ◀ Facilitates the development of netball growth programmes, club training and competition within public leisure centres.
- ◀ Where appropriate, supports the development of netball homes and performance environments that enable local women and girls to pursue a career in netball as an elite athlete, official, coach or administrator.

British Cycling's Strategy identifies seven key priorities for cycling before the Paris Olympics in 2024. These priorities are:

- ◀ Inspiring Performances
- ◀ Grow Communities
- ◀ Engage the Next Generation
- ◀ Flagship Events
- ◀ Cycling for Everyone
- ◀ Work Together
- ◀ Equipped for Success

The seven priorities are not everything that British Cycling will do, but that can have the greatest impact over the next 36 months. The priorities are all interconnected and are cross interdependencies – achieving one strategic priority is often reliant upon achieving the other.

For each of the priorities, the Strategy sets out the measures of success:
