Kitchen Aids and Equipment

Aids and Equipment in the Kitchen

Kitchen Equipment

Perching Stool

What is it for? Used in the kitchen to allow for rest during meal preparation, washing up and related tasks. Used in the bedroom to assist with dressing or used in the bathroom at the sink

Considerations?

- The seat is slightly tilted to allow someone to perch, knees will be lower than the hips, the person will weight bear through their feet so feet must be flat on the floor to be at the correct height.
- The legs of the stool are splayed which may cause a trip hazard.
- Need to consider space in the room.
- Must be able to use both hands to assist with standing up to prevent tipping.
- Weight restrictions of product

Where can I get it from?

Various outlets, may wish to consider trying:

- Ableworld (Online or in store at Newport or Shrewsbury)

Kitchen Trolley

What is it for? Used to transport food and drinks from one room to another.

Considerations?

- Should not be used as a substitute for a walking aid.
- The person must have a good walking balance
- Consider flooring due to wheels; thick carpet or rugs will make it difficult to use and smooth flooring will limit the control a person will have on the equipment especially if they were to fall.
- Must be able to use both hands to assist with standing up to prevent tipping.
- Weight restrictions of product
