Dear Sir,

I believe that the S&N canals need to have protection within the T&W Plan to prevent potential encroachment from future developments. This canal, one of many that once criss-crossed our town, provides a link to the past history of our area. Many of those original canals are beyond retrieval, but this one still has a chance of re-development. It would be wrong and somewhat near-sighted to allow developments that would prevent such an enhancement of the canal through the Telford area. Improvement and addition of wildlife habitat should also be a consideration.

Such environments are beneficial to the humans who live nearby too, providing space to exercise and contemplate.

Yours sincerely,  
Wendy Palin.
