Facts & Figures – Health & Wellbeing JSNA Key Messages for Telford and Wrekin

Population

Age	2019	2031
0-17	41,100	45,200
18-64	106,100	110,400
65+	31,400	41,300

Source: Telford & Wrekin Local Plan Population Projections 2015, projection for 2019 & 2031

The population of Telford and Wrekin is 'younger 'than the national position, although with the fastest growth being in the 65+ age group the age profile of the borough is now much closer to the national position.

Total Population (2019) 178,630

Ethnicity

	T&W	England
BME	10.5%	20.2%

Source: ONS Census 2011

BME refers to people of all ethnicities other than 'White British'

The population is becoming more diverse. As well as new migrants a key driver of change has been the younger age structure of BME groups leading to a greater likelihood of them having children.

Life expectancy

	Male 2015-17		Female 2015-17	
	T&W	England	T&W	England
At birth	78.5	79.6	81.9	83.1
Healthy	60.9	63.4	62.4	63.8

Source: ONS

Male life expectancy has increased over the last decade, but remains worse than England average Female life expectancy has also increased, but remains worse than England average.
