Vehicle Access application - guidelines

Before you apply, please read the instructions below

Only the property OWNER can apply for a vehicle access. A tenant can apply but a letter of consent is required from their landlord. This approval letter has to be supplied to Telford & Wrekin Council with the application form attached before any inspection can be carried out.

Charges

There will be a charge for each vehicle access application to be agreed upon request.

After inspection, if the vehicle access request is refused, we will refund your payment minus £50 which covers the initial inspection. Refunds can take up to 28 days to process.

Payment of the above fee is required on application and no inspection will be carried out if payment is not received.

When you accept a quote from the contractor of your choice, you are entering into an agreement with them to carry out the works and payment must be made according to their quotation details.

Street furniture/Illuminated Street furniture

If any existing street furniture (Street lights, bollards, street nameplates etc) require repositioning or removing, you will be responsible for the cost of this work. On initial inspection, the Highways Technician will establish if this work is viable and advise you of the costs of any work.

Utility chambers or drains

If any existing utility chambers or drains require repositioning, you will be responsible for the cost of this work. On initial inspection, the Highways Technician will establish if this is required and your letter of approval will include information of who to contact to arrange this work.

Timescales

When you submit your application a Highways Technician will carry out a site visit. You should hear from the inspector within 30 days to say whether your application has been approved or declined. You will receive a letter confirming this.

Once you have approval you must supply us with the details of your chosen contractor, the date works commence and the timescale of works using the FORM1 notice sent with the approval.

A minimum of 15 working days notice is required prior to the commencement of the works. All works must be completed Monday to Friday, weekend works are not authorised.

Your vehicle access application is valid for 12 months from the date of your approval letter and all works must be completed before this time.
